team: IoT Workshop				
	yes we have!	can be improved, namely	is complicated, because:	don't see how to improve this
Devotion				
All the teammembers are committed to the team.		K should catch up from exam week (some more coding)		
Objective				
Everyone can describe the team objective, learning goals	v			
Trust				
Everyone trusts each other	v	We trust each other to finish the work each of us have to do		
Discussion				
No one is afraid to say what he wants to say		Be open to questions, even if they seem obvious to you		
		dont hate the player hate the game...		
Recognition				
Providing an individual contribution to a team is rewarded.	v	Every good deed is rewarded with a crisp high five and the occasional smiley sticker		
Conflict				
Conflicts are inevitable because of the several backgrounds.		Instead of waiting till the end of the semester to mention problems		
No problem if you are able to find compromises.	v	we should immediately discuss the problems we have		
Cooperation				
The teamleader takes care of a good atmosphere.		it's a good team leader in training <3, try to incorporate more SCRUM and trello usage		
		Needs to take more initiative and responsibility		
Choose				
You have to work together in a team, do you like it?	? We guess ?	[feedback] nobody knows what this mean, explain?		
Discuss				
Discuss misbehaviour of team members.	v	None of us are really punctual		
Discipline				
Each team member adheres to the team appointments		better attendance, being more punctual. Being on time when we begin		
		Everyone NEEDS TO TAKE MORE INITIATIVE
